METHOD OF APPLICATION

Foliar Spray

- Dissolve 2 teaspoons (10g) in 5 litres of clean water and spray leaves at fortnightly intervals.
- Spray over foliage until leaves are wet; if possible, wet underside of leaves as well.
- For best results, spray early morning or late afternoon, never in the heat of the day.

Root Feeding

- Dissolve 3 teaspoons (15g) in 5 litres of clean water and dose fortnightly,
- or
- Sprinkle 1 level tablespoon (15g) on the soil around the plant and water in well.

AVAILABILITY

GARDEN PRIDE SOLUBLE FOLIAR FEED is available from leading nurseries, garden centres, hardware stores and co-ops in 500g, 2kg and 5kg sizes.
